

# An effective approach to preparing for international business development - Turin, 11 and 12 July 2017

Turin, 11 and 12 July 2017

## An effective approach to preparing for international business development

Turin, 11 and 12 July

To create an international **business development plan** and begin putting the plan into action in order **to increase export sales opportunities**: these are the main objectives of this course.

Especially designed to develop the skills and the professional awareness required to operate on international markets, and organised by Ceipiemonte (Piemonte Agency) on behalf of its stakeholders, the course will:

- allow you to **learn how to assess your business** for international growth
- assist you in the process of **evaluating and clarifying your export planning process**
- reflect on and share with the other participants key areas of strategic decision making.

## Programme

### Main topics:

- Going international
- Business growth readiness assessment
- International business growth strategy development
- Preparing an international marketing plan
- Executing the plan and making a roadmap
- Communication
- Making a brief presentation to potential partners/clients in English on the company, the products and services.

### Additional focus on:

- Sharing international business experiences, doubts and aspirations

- International business case studies
- Practical exercises to support and develop an approach to international business
- Creating an export business mindset

## Target Audience

This course is suitable for people that have a good working level of spoken and written English.

## Course deliverables

- The international scenario: why is export important? What to expect?
- Business growth analysis: where are we now?
- Choosing international markets: where to go?
- International business planning: how to plan and make progress
- From local to foreign market: how to assess the gap
- Action plan/executions: what to do next?
- Continuity and business management: how to stay on track
- Business presentations: are you prepared ?
