

TECNO SYSTEM SPA

> More about TECNO SYSTEM SPA

Since 1990, Tecno System offers design and production services for electronic boards and complex mechatronic systems.

Their services cover the entire cycle life of an electronic product: feasibility project's analysis, design, engineering, industrialization, certification, electronic production, finished products, and systems realization, after-sales services.

Thanks to its international presence, with three production plants in Italy, Tunisia, and India, Tecno System established itself in highly complex and competitive markets such as railways, automotive, aerospace, industrial automation and innovative markets such as IoT and green mobility.

Their goal is to generate a competitive advantage for the customer on several fronts: price, product quality, process quality, quality of services and supply requirements.

They obtained IATF 16949:2016, AS9100, IPC trainer, ISO14001:2015 certifications.

Tecno System mainly operates in the aerospace, automotive and smart manufacturing fields.
