HEADAPP

EYE **4** TASK

> More about HEADAPP

HeadApp develops web based native cloud solutions to enhance human capabilities by providing a collaborative platform, integrated with wearable devices and based on augmented reality technologies, that can be used to remotely support workers hands-free, improving decision making processes in real time.

HeadApp core product is Eye4Task, a Ready2Use field-centric platform developed to drive and manage any kind of field Workflow by enabling hands-free & real-time collaboration among productive resources. Eye4Task actually bridge the gap within field operators and company know-how (People, Process, Information, Systems) by:

· allowing workers to take advantage of a hands-free work environment.ì

· optimizing workflow efficiency

· enhanceing communications & competence transfer

· certificateing field activities

· following field procedures
