> ~~More about Tecnocad Engineering & Design~~

TECNOCAD heads a group of **automotive industry** companies organized and structured to provide a **complete and integrated engineering service** able to cover the entire development process from the initial concept, to complete development, up to the production start-up phase. Thanks to its **flexibility, reactivity and expertise**, Tecnocad is the perfect partner for assisting Customers with all technical challenges, by adapting its organization to the various project requirements. It is able to develop and manage both complete turnkey projects and assist Customers for specific phases of the engineering process or for certain subsystems or development perimeters.

Tecnocad currently works with many worldwide OEMs and Tier 1 companies and has gained their complete confidence thanks to its recognized quality of service and reliability in reaching assigned goals.

It is also present with offices in Brazil, China and the USA.

TECNOCAD operates in the aerospace and automotive sectors.
