> More about Società Industria Meccanica S.I.ME. SRL

S.I.ME. is a family owned company, founded in 1950, EN 9100 qualified, supplying the European Aerospace & Defence Market with complex machined parts and small assemblies.

In our 2 plants, strategically located close to Milan Malpensa and Turin Airports, our 35-people team exploits our modern equipment capabilities that are: 5 Axis machining, CNC multi-spindle turning, CNC internal and external grinding, external thread rolling and Lapping and professional deburring.

The parts are manufactured in various alloys such as 15-5 PH, 17-4 PH, Inconel 718, Steil ite 6, 7075, 2024, Peek, etc. Our skilled technicians have acquired significant experience in the following NADCAP approved special processes: PH-steel Precipitation, Magnetoscopic and Liquid Penetrant Inspection NDT.

Passivation IAW AMS 2700 and all the major customer specifications will be NADCAP approved by 04-2018.

Our customers rely on SIME and its qualified supply chain to support their current and new projects. In fact SIME manufactured parts are flying on A380, A320neo, AW169, AW109, AW189, Bombardier C-Series, A350, B777x, Embraer, Comac 919, Tornado, EFA, AMX. SIME is member of Altair Consotirum.
