> More about ORSADRINKS SRL

Orsadrinks was born in **1992** in Italy in the South of Piedmont.

Initially, the product range of **ODK** was limited to **powdered products** but, after observing how the cocktail scene was booming in the US in the 1990s, the company soon decided to diversify into the cocktail market.

The success achieved in these early years allows the company to devote itself to the creation of new products to enrich its offerings, in response to the growing demand from beverage professionals.

During the 2020s it was decided to bring production in-house, in order to pursue innovative, groundbreaking and fully automated facilities.

In order not only to complete its range but also aiming to develop innovative products, two more brands were launched: **Stillabunt**, dedicated to high-end mixology, and **Malafemmina**, a range of Italian Soft Drinks.

ORSADRINKS SRL

Nowadays, Orsadrinks is a trusted partner in the drink industry and a brand of choice in mixology world in more than 50 countries all over the world, with over 150 products.
