## > More about ENRICO BRUNO SRL

ENRICO BRUNO srl produces, distributes and offers technical assistance by more than 50 years on a wide range of scientific laboratory instruments. Our production program, focused on the thermal control sector, is comprehensive of thermostatic ovens, incubators, refrigerated incubators, water baths, water distillers.

Within this range of products we are in condition to supply productions on Customer's demand, according to specific technical requirement or dimensions. We are also one of the biggest Companies of North West of Italy dealing with scientific labware (instruments rather than consumables), both in the public than in the private sector.

We offer a wide range of products (Instruments, Consumables, Reagents) which are in most part managed at our warehouse with adequate stocks for a ready delivery service, mainly in the sector of plastic disposables labware, of glassware, of general consumables, chemical reagents and microbiological diagnostics.

Within the brands are the most important Italian Companies of the sector and many suppliers of the E.U., among the most qualified in respective fields.

ENRICO BRUNO srl mainly operates in the cleantech and health & wellness fields.
