> More about FIDA

Fida, Italian premium candies since 1973. A careful selection of raw materials and cutting-edge production technology ensures artisanal methods, continuous research, and innovation to create quality candies. For more than 50 years, Fida has combined all of this to guarantee unique and distinctive products to its customers.

Fida, an Italian company located in Castagnole delle Lanze in the heart of Piedmont, was founded in 1973, inspired by making soft fruit jellies with an artisanal processing method, from which the famous Bonelle were born.

Over time, the company has become a market leader in jellies and sweets, becoming well-known for its flagship brand Bonelle, a veritable patrimony of sweetness and experience. Their passion for sweetness has driven the company to continue its process of innovation and development. In 2016, Fida acquired the Rossana candy from Perugia and immediately re-launched the brand. Elegant and unique, Rossana is not simply a candy but a masterpiece, a true expression of taste and sweetness. Rossana is an amazing hard candy with a unique creamy filling and it is appreciated by millions of Italians of all ages.

FIDA

All Fida candies are 100% natural and certified Halal, and they are available in vegan or vegetarian options. Bonelle and Rossana are the most sold candies in Italy, further solidifying Fida's reputation as a leader in the confectionery market.
