> More about ECORI' AGRICOLA S.R.L.

*Ecori is the **Italian rice** as nature commands, born in 2002 from the love for the land of 11 members from Vercelli and Novara in Piedmont, North of Italy.*

*What distinguishes Ecori is the totally internal company supply chain: from **cultivation**, carried out exclusively with environmental-friendly methods, through **transformation** in a rice mill, equipped with the latest generation machines to guarantee the selection and excellent quality of the grain, up to **packaging** and **marketing**. Only in this way, the product traceability (certified by SGS) within its utmost control and quality is ensured. Thanks to these factors, Riso Ecori is chosen by the best Chefs all over the world.*
