NORD SALSE

> More about NORD SALSE

Our history began in 1988 with the production of fresh pesto. The passion for national specialties has always been accompanied by the desire for high quality and a great curiosity for foreign markets. All this has allowed the creation of a wide range of products: pesto, tomato sauces, creams, spreadable and condiments for first dishes in general.

In Italy, our products are sold in the most important supermarket chains, fresh assortment, high-quality recipes and refrigerated storage. Referring to the foreign development, Nord Salse avails itself of importers and/or distributors and exports mainly long-life products (dry assortment) even though the fresh products sector is growing rapidly. We exports our products all over Europe and also in important markets such as Japan, USA, Australia, Cina and South Korea. The company owns the two most important certifications in the food world: IFS and BRC, getting in audits the highest scores.

The company is regularly FDA registered. We can manage both retail and Ho.Re.Ca formats. Private label is a service we provide to our customers: Nord Salse can be the ideal partner for all the customers willing to enter the market with private label products with a quality certified product.

A range of organic and vegan products completes our assortment.

Our company, thanks to the great flexibility and the desire for growth is able to meet the different needs of clients, thanks also to the variety of recipes, packaging and sizes.
