

BERFRALK

> More about BERFRALK

The company BECCHIO & MANDRILE – BERFRALK SRL has been manufacturing top quality agricultural machinery for over 30 years, specializing in planning and producing flail mowers, lateral shredders and hedge cutters.

The range product consists of 16 different models of flail mowers and 8 different models of hedge cutters for tractors from 15 to 300 HP.

The production includes:

- Flail mowers: from 0,90 m up to 8,00 m for tractors from 15 to 300 HP.
- Hydraulic hedge cutters: working radius from 3,00 m up to 7,50 m for tractors with minimum weight from 300 kg to 4.000 kg.

The company is present in 21 countries and the 70% of the sales revenue comes from export.

The quality of the products BECCHIO & MANDRILE is assured by the use of components exclusively made in Italy and by the collaboration with suppliers leader on the market.

BERFRALK

A careful analysis of the needs of the different customers and an excellent service post sale have awarded our success. These features conferred us the image of reliability which distinguishes us on all world markets.
