Retailer / Soft drinks / Soups / Sports nutrition

## > More about AUDERE

Audere LACIOCCOLATA is a handicraft manufacturer, which started as a chocolate lab and is located in UPPER PIEDMONT. With the transfer to the new production site in San Maurizio d'Opaglio (NO), it has started the production and sales of the new brands: Audere LIQUIDA and Audere MATERIA. Our recipe is simple: just a few essential and completely natural ingredients.- Cocoa beans, cocoa mass and cocoa butter. For our filled products, we use ingredients like dried fruits and dehydrated vegetables (that we dehydrate on our own); pollen and propolis, Blond Onion, White Truffle of Alba.- We manufacture Juices, Nectars and Compotes; our fruits grow in Italy and are harvested only during the period of natural ripening. From the fruits rich of fibre we obtain soft and thick Nectars and smooth Compotes.
