## > More about O.M.A. DI LAMBERTI DARIO E C.

The O.M.A. s.n.c. was born in 70's with the building of log splitters and band saws. In the years, with the evolution of the professional and private market, the offer is expanded with the production of circular saws, vertical and horizontal splitters, conveyor belts, combined machines and hydraulic wheelbarrows. The experience matured into design and development of machines with certified quality and with high standards of security, allows O.M.A. to realize machines for particular requests of the customer, for Italian and abroad market, where is important the collaboration with France, Belgium, Germany.
