

RAPETTI FOODSERVICE

> More about RAPETTI FOODSERVICE

RAPETTI FOODSERVICE, founded in 1919, was one of the first companies to offer a comprehensive catering foods service to staff canteens, schools, hospitals and the like and today the company is widely recognised as a market leader.

Over the years, firstly as RAPETTI Alimentari and from 2007 as RAPETTI Foodservice, its business operations have been expanded both in Italy and overseas with specialised product lines based on the strong Italian tradition in good food, offering innovative and customised solutions for all the various areas of catering such as industry, schools, healthcare centres, care homes, offices, banqueting and hotels as well as a 360° pre and post sales service.

Through the capacity to understand the dynamics of modern distribution and to anticipate the needs of our customers, we have reached optimum levels of service with an extensive range of quality products which can be supplied groupage from our own warehouses or directly from the producer for larger bulk orders or even using our wide experience to act as a consultancy service on Italian products for international buying groups.

With the benefit of the latest technology and the commitment of our staff in the distribution chain, we guarantee that our many customers every day receive the freshest foods and the highest quality frozen products, all with an excellent price/quality ratio.
