## > More about CONFITECH

CONFITECH designs and manufactures equipment for the confectionery industry. Since 1932 our machines are successfully used in the production of hard and soft candy, solid or centre-filled, sugar-free, lollipops, caramel, toffees, fondant creams and pure-sugar sweets, all over the world. We are specialized in weighing and mixing of the raw ingredients, preparation of the slurry, cooking, cooling of the cooked mass, addition of colours and flavours, laminating and forming line feeding.
