> More about Primavera Foods Farm

Primavera Foods Farm Srl is an Italian company based in the heart of Vercelli, one of the most renowned agricultural areas for rice cultivation in Europe. Founded in 2017, the company specializes in the packaging of rice and legumes, as well as the production of ready-to-eat risottos and soups, inspired by traditional Italian cuisine.

Vercelli is not just our operational base – it is our origin and our inspiration. We work closely with local farmers and producers, supporting and enhancing one of Italy's most prized agri-food excellences: rice.

Our Product Lines

- Packaged rice (Arborio, Carnaroli, Baldo, etc.)
- Ready-to-eat risottos (Porcini mushroom, saffron, truffle, asparagus, and many more)
- Hearty soups, inspired by traditional rural recipes
