GARIGLIO MECCANICA

> More about GARIGLIO MECCANICA

Gariglio Meccanica S.r.l. is a company with over 50 years of experience in the precision mechanics sector, based in Pianezza, in the province of Turin. Founded by Renato Gariglio and Alessandra Tabarrani, the company began as an artisan business specializing in the construction of components and machines for the typography sector.

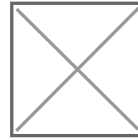

In 1999, the company became Gariglio Meccanica S.r.l., expanding its offering to include high-precision mechanical parts machining, the production of complete assemblies, and special machines. Today, the company operates in a production facility of nearly 1,200 m², employing approximately 25 staff members, including employees and collaborators.

Gariglio Meccanica serves both national and international clients, offering a wide range of products and services, from the manufacturing of small and medium series of high-precision mechanical parts to the assembly of complete groups and special machinery.

The company operates in various industrial sectors, including:

- Prototyping
- Automotive
- Industrial automation
- Robotics
- Aerospace
- Logistics
- Packaging

GARIGLIO MECCANICA

- Typography
- Food industry
- Textile
- Medical
- Pharmaceutical

One of the company's key strengths is its ability to customize solutions according to the specific needs of its clients while maintaining high-quality standards.

Gariglio Meccanica is certified according to the UNI EN ISO 9001:2015 standard, demonstrating its commitment to quality.

The company has a state-of-the-art machinery fleet, including CNC lathes, vertical and horizontal machining centers, grinding machines, and other equipment for precision mechanical processing.

Participation in the Aerospace Integrated Supply Chain Project (PIF Aerospace), promoted by the Centro Estero per l'Internazionalizzazione del Piemonte, represents a strategic opportunity for Gariglio Meccanica.

Gariglio Meccanica S.r.l. is a reliable and competent partner in the precision mechanics sector, with solid experience and a strong commitment to innovation and quality.
