

ANTICA DISTILLERIA QUAGLIA SA S

> More about ANTICA DISTILLERIA QUAGLIA SA S

Distilleria Quaglia's ancient tradition is based on an inestimable heritage of recipes, secrets and precious knowledge that have been handed down for four generations while keeping their value intact. We take inspiration from the past in order to tell the richness of our territory and to treat it with the respect it deserves. Time is our secret ingredient: the liqueur must mature, grow and evolve.

Our history began in 1890 and has been handed down for four generations. We have always sought the perfect combination of aromas and sensations to enclose it in a liqueur. We work to convey all the richness of our territory, translate it into a recipe, a flavor, a perfume.

The life of a liqueur begins in the ground and becomes a synergy of forces that, together, form a new balance. This is why our spirits, liqueurs, fine grappas and high quality vermouths are produced with artisanal methods that respect the tradition of the extraordinary heritage of historical Piedmontese recipes and the deep relationship between the field and the bottle.
