> More about TOSO SRL

In 1877 our ancestor Toso Giacomo built wagons and carriages; five generations of the firm Toso name is linked to the design and construction of mechanical quality products.

In 1950 our company started manufacturing machines and systems for material and product handling for all industrial branches.

Today our company is ready and organized to solve any problem managing it in a simple way: from logistics and warehousing, ecological sector, environmental sector to the food industry, the recycling of plastics to the tire, for which we are prepared for the particular needs.
