Core business / Destination sector / Equipment / Ground and territory

> Other key sectors

Agrifood, Automotive, Mechatronics

> More about BRAVO

Bravo was founded in 2001 by the merge of two leading companies operating in breeding machinery, in the market since the 1970s and 1980s ("ROTOMIX", the first Italian company to build self-propelled mixer wagons and "BICIEFFE", which was specialized in straw-throw, straw blowers without turbine and sawdust distributors).

Their former production is still carried out at Bravo srl.

BRAVO s.r.l. mainly works in the agri-food and automotive fields.
