> More about SEA MARCONI TECHNOLOGIES SAS

Sea Marconi was established in Turin in 1968 based on a business concept by Vander Tumiatti. The company now operates in the key sectors of energy and the environment, with sustainable solutions for the management of transformers and other electrical equipment filled with insulating fluids (core business).

Sea Marconi occupies a leading market position in the sector, with 3000 clients across 5 continents. We have offices in Italy, France, Spain and Argentina, and operate in other areas of the world through qualified partners.

Over the years the company has become a trusted partner to major industrial groups and utilities in the field of energy production, transmission and distribution. Our clients include: Terna, Gruppo EDF Italia, GDS Italia, Eni, Enipower, Edipower, Enel in Italia; EDF, ERDF, RTE, Rio Tinto Alcan, SNCF, Total and Arkema in France; ADIF, Endesa e Repsol in Spain and many other players on the international arena.
