## > More about SCAM

SCAM Srl has been working in the field of **thermics** since its foundation in Turin, back in May 1930. It was initially established as the Italian Branch of an important international industrial and financial group. At the beginning of 1980 the Company became independent and totally Italian.

During all this time SCAM expanded its activities by supplying equipment to merchant and military Navy, for domestic and international shipyards, as well as Italian and foreign industries in various areas such as petrochemical, electrical, mechanic, textile and paper manufacturing fields. The growing and long success that SCAM has been enjoying so far is witnessed by the constant development and refinement of our business structure and by our long list of customers.
