C.E.A. di Cornaglia

> More about C.E.A. di Cornaglia

C.E.A. DI CORNAGLIA, settled in 1988, is specialized in the production of **fertilizer spreaders and other agricultural equipment** under the brand name AGRIMIX; a few years after, a new Forestry line, under the brand AGRIFOREST, is added.

C.E.A. DI CORNAGLIA - AGRIFOREST is a reference company for several international markets, in addition to the Italian one, thanks to its *wide range of products*, alongside with the *high quality of the materials used* (S700 steel, axes in 39NiCrMo3, pins with bronze bushings, top range oleo-dynamic materials), the prompt response to its customers' needs and the constant research for updated solutions, the wide availability of material in prompt delivery and, last but not least, the excellent quality-price value. C.E.A. DI CORNAGLIA mainly operates in the automotive and agrifood fields.
