

POLITECNA EUROPA S.R.L.

> More about POLITECNA EUROPA S.R.L.

POLITECNA EUROPA SRL was born in 2003 from the experience of the founding partners Eng. Luca Massimo Giacosa and Eng. Pietro Putetto and today is an international reality active in several countries with an innovative, sustainable and constantly evolving approach. Our Company is specialized in architectural, structural and plant design services as well as project management in the civil and infrastructural sectors and management of public tenders.

ARCHITECTURE

High competence, strong specialization, the synergistic interconnection of disciplines to achieve high standards of architectural design in the following areas:

- health buildings and scientific centers
- school and university buildings
- historic buildings subject to cultural heritage
- offices and commercial

STRUCTURAL ENGINEERING

POLITECNA EUROPA S.R.L.

The interaction of the computational power of the best software and the professional experience of the working group as a guarantee of efficiency in the structural design of works in:

- ordinary and prestressed reinforced concrete
- metal carpentry
- wood
- masonry

PLANT ENGINEERING

From single-line to three-dimensional design is the goal of the latest generation plant design. The design and construction interferences overcome by the synergistic centrality of the design disciplines in the field:

- thermo-fluidic
- plumber
- electric
- fire prevention
- Final Design

PROJECT MANAGEMENT

Coordination and project management activities from planning to future construction, maintenance and monitoring of the work addressed with project implementations of the cutting-edge method acquired, specifically defining:

- Cost-benefit analysis
- Productivity curves
- Optimization of processing
- Dynamic planning of activities

TENDERS

The knowledge of the construction phases, from the construction site to the completed work, the continuous search for innovative building components in the architectural and engineering fields as a guarantee of specialization of the working group for the joint participation in construction companies in:

- tenders with the most economically advantageous offer
- integrated procurement

POLITECNA EUROPA S.R.L.

- real estate valuations
- economic and financial plans (PEF)
- profitability calculation
- calculation of the life cycle and management

SURVEY - BALANCE SHEET

Assessment of the state of affairs, definition of preliminary data preparatory to the design with the use of state-of-the-art instrumentation, such as:

- laser scanner / point cloud
- total station
- instrumental monitoring
- augmented reality
