> More about Sertec Engineering Consulting

SERTEC Srl was founded in 1968 as an engineering consulting company

for the execution of technical and calculation services in the field of civil engineering, plant engineering, and environmental engineering.

Thanks to decades of experience, extensive internal organization, and a

team of first-rate specialists, SERTEC today can offer public and private

clients a wide range of services, managing every aspect of the entire building process: from design to calculations and direction of works in the fields of civil engineering, architecture, urban planning, hydraulics, plant engineering, geotechnics, environmental aspects, renewable energies, up to the delicate sector of safety coordination on workplaces.
