RIMANI srl

> More about RIMANI srl

Rimani is an Italian company manufacturer of technologically advanced lighting system.

Our business is to create comfortable efficient lighting system, tailored to each individual customer's needs. We constantly strive to take our products and solutions a step closer to a simple and "smart" use of light; a light that offers people a better quality of life, accentuates beauty and reduces environmental impact.

"We design and calibrate light, give it the right weight, colour and warmth.

We work alongside you to study how to create the setting you dream of having."

VISION

We want to emerge, with innovative products, sharing our experiences in order to improve people's quality of life, everywhere and in every possible way.

MISSION

We create added value to your project.
