> More about EMMECI KLIMA SRL

EmmeCi Klima S.r.l. is an Italian specialist in designing and manufacturing bespoke ventilation, heating, and air conditioning duct systems. They produce ducts, plenums, and circular accessories.

Through close cooperation with HVAC installers, engineers, and contractors, EmmeCi Klima delivers high-quality, custom-tailored components designed around specific project requirements. Their streamlined manufacturing facility enables full control over production—from metal shaping and assembly to quality testing—ensuring each component is tailored precisely, competitively priced, and delivered fast. This customer-centric approach has made them a trusted supplier in the HVAC sector across Ital
