> More about Valvomec srl

Valvomec are present on the market since 1929 as a company of international reference in the field of **industrial valves in bronze and the precision machining of mechanical components in bronze.**

The 85% of the turnover is exported to northern Europe, and then reach markets around the world.

The entire production chain is present at the plant, a choice that allows you to take care of all critical phases of the production process. With its young and dynamic staff and thanks to many years of business experience in the field of casting and bronze work, Valvomec is able to meet the needs of the most demanding customers to design and produce special pieces, processing according to customer design, valves, taps and details in bronze for each type of application.
