> More about SMAT NORD

SMAT NORD is an historical Italian Company, leader in the manufacturing of rearview mirrors and related fixing and accessories since many years.

The company is located in Almese , near Turin ,North Italy, and has an important range of mirrors for several kinds of machines in the agricultural sector, construction equipment, busses, industrial and commercial vehicles.

The offer of SMAT NORD is complete: mirrors with arms and holders, manual, heated and electrical.

The main OE customers of SMAT NORD are: SDF, JOHN DEERE, KUBOTA, MANITOU, BOBCAT, DOOSAN, CLAAS, JCB , CNH ,SOLARIS BUS... and many others.

SMAT NORD is structured and organized to supply both big volumes and also low volumes; offer its experience to make specific technical proposals following the specific need of the customers.

The company is constantly improve its offer adding many different rearview mirrors in its range in order to meet the different market request (and to fulfill the different European Regulation).

SMAT NORD

One of the major strengths of the company is internal R&D Dpt. , SMAT NORD support its customers in their projects from co-design and development phase offering the possibility to provide customized mirrors that meets with their specific needs. The engineering dpt. can easily design and modify parts in short time.

Working with 3D printers SMAT NORD is able to provide its customers physical samples that represent the definitive customized product in short delays.

All the mirrors can be assembled in different kind of arms, this allow to SMAT NORD high flexibility and high customizing possibility.

The most sold products are shown in the catalogue, downloadable through the website www.smatnord.com.

SMAT NORD manages more than 2000 different items and each of its products can be customized for a perfect fitment to any vehicle.
