## > More about BHP SRL

Brake Hose Production srl (BHP) is an Italian company born in 2007 as spin-off of the Freudenberg group, specialised in design and production of high quality brake hoses for the automotive aftermarket and in small and medium series for Original Equipment Manufacturer (OEM) production.

High quality components combined with high-technology equipment and experienced-staff make BHP's brake hoses the best in the market for compliance with the original parts and brake performance.

BHP srl boasts a cutting-edge measurement department that performs 8 control-stages respectively before, during and after the production process, in order to make sure that all the products respect their minimum assigned tolerances and to keep under control the assembling process.

As the company policy aims to high-quality standards and continuous improvement, BHP srl holds the ISO 9001 certification of quality and from 2015 has officially got the ISO TS 16949 -Original Equipment Automotive-certification.
