GENERAL CAB

> More about GENERAL CAB

Established in 1982, since its foundation, General Cab group has been an independent Italian organization working in the Automotive main global markets.

The wide range of universal high-performance solutions can satisfy any need in the car, special vehicle, truck, bus, motorcycle, heat exchanger, mobile cooling, off-highway industries.

At the same time, General Cab Group can develop customized products, compliant to specific Customer requests and guaranteeing, during the whole development cycle, excellent quality standards from design to product testing and from industrialization to mass production.

General Cab mainly operates in the automotive and smart manufacturing fields.
