

4S

> More about 4S

4S Group is a young company, founded in 2008 by experts who were formerly senior managers of technical and organizational areas in automotive companies, with wide and complementary experiences, which are fundamental in most advanced and high technology fields.

The competencies include:

Company Management System (Quality, Environment and Workplace Safety);

Suppliers Management;

Product Development Process;

Production Process Improvement;

Product Reliability;

Functional Safety;

Electric/Electronic (E/E) architectures;

Test equipment and facilities;

Alternative propulsion systems (electric, hybrid, fuel cell);

Project Public Financing.

4S Group provides consultancy services and products (software) to support companies in the above competence areas.
