## > More about ALTAIR

ALTAIR consortium joins the skills and competencies of currently 9 partner companies, involved in the aerospace sector and other relevant experience fields.

Relevant skills are linked to services (program management design, engineering, maintenance, quality and OH&S management, training, logistic engineering, test, and validation) and production/supply (complete parts - including material, machining, NDT, thermal & surface treatments and small assemblies, electronics, test benches, manufacturing and repair, composite materials and composite structures and parts manufacturing, industrial gaskets and sealing materials, thermal and acoustic insulation products, lightweight materials for interiors – in aerospace and other fields.

ALTAIR mainly operates in the aerospace, automotive and smart manufacturing fields.
