> More about FRATELLI BOSIO

The Fratelli Bosio Company is a factory established in Turin in 1929.

It was the first in Italy to make nozzles, elements and delivery valves for Diesel engines (agricultural applications, cars, trucks, busses, industrial and marine engines). The production of spare parts for Diesel Fuel Injection Equipment is totally made in ITALY starting from raw materials purchased in UE and worked in our Factory Based in CASTIGLIONE TORINESE to obtain the final products. No half worked parts come from outside (neither from Italy, nor from Europe or from the rest of the World).
