SARGOMMA Srl Società Benefit, a Socio Unico

➤ [More about SARGOMMA Srl Società Benefit, a Socio Unico](#)

SARGOMMA Srl is specialized in the design, development and production of rubber and plastic components. We mainly operate in the automotive, agricultural, industrial, earth-moving machines and nautical sectors, using the most advanced technologies to be flexible.

With more than 40 years of experience, we export 1/3 of our production to Europe, USA and Latin America, and collaborate with important partners in the EU.

Our strategy is focused on product quality and customer care, and we work closely with the manufacturers to co-create tailor-made rubber and plastic solutions with a wide and innovative expertise in materials and manufacturing techniques. We combine multiple technologies to create hybrid, complex and assembled components, and we are experts in:

- Moulding and co-moulding
- Die cutting and water jet cutting
- Extrusion and pre-forming
- Rapid prototyping

With the recent acquisition of 11.300 sqm in the former Pininfarina plant, Sargomma aims at unifying its product lines under the same roof with the goal of increasing its market competitiveness and to enter innovative & sustainable sectors.

SARGOMMA Srl Società Benefit, a Socio Unico

In 2021 Sargomma also launched the new division SKIN, born from the meeting between the company and the artist Alessandro Ciffo. SKIN offers silicone coatings for the interior and exterior design sector, partially made from Sargomma's production waste, combining art, design and eco-sustainability.

Furthermore, in order to certify its skills and with a view to increasing transparency towards its stakeholders, Sargomma adopted a certified management system pursuant to ISO 9001:2015, IATF 16949:2016 specific for the automotive sector, and UNI ISO 45001/2018 for the administration system of employees' health and security.
