## > More about I.B.S.

The I.B.S. s.r.l. specializes in the production of masses brake (drum brakes) for cars, commercial vehicles, forklifts, special vehicles.

Currently our range of products is based on brake systems for Fiat, Lancia, Iveco.

We increase every year with new articles and other plants, such as Bosch Bendix Valeo.

Do not neglect brake systems for vehicles and special small series built to customer design.

We also available for special vehicles brake pedals accelerators, steering columns.
