Instrument Panel, Driver Interface / Construction & Assembly /
HVAC / Electronics/ Electric Parts

> More about F.G.I. SRL

FGI is specialised in the conversion of foam, rubber and non-woven fibers as well as adhesives into water/noise/heat insulation gaskets, pads and panels. Main materials include EPDM, Polyethylene, Polyurethane, felts and fibers as well as adhesives from 3M, Tesa and Nitto. We have production facilities in Italy, Poland, Portugal and Morocco and work as TIER1 or TIER2 for most OEM manufacturers worldwide. Main technologies include die-cutting, plotter cutting, rotary cutting, splitting and lamination.
