## > More about RUSPA

RUSPA OFFICINE is an independent company that produces components for buses and vehicles: robust and reliable wheel covers, accessories for interiors, innovative seating systems and seats, focusing its core business on accessories, special equipments and components in the commercial vehicles field for the transport of people and goods. The company carefully controls the raw material and finished products; this results in high quality, reliability, flexibility and production diversification. With more than 30 national and international patents, the company places itself in a leading position in the global market.
