BOSCO ITALIA

> More about BOSCO ITALIA

BOSCO ITALIA is an Italian joint-stock company founded in 1976 with the aim of providing **products and services for the acoustics market**.

Over the years the company has built up a huge expertise in designing and manufacturing **turn-key soundproof systems for industrial, commercial and institutional applications**.

Together with the traditional activity such as the design of soundproof systems for streets, railways and for industry, other sectors have been taken into account, developing soundproof equipment and/or manufacturing systems: testing rooms for avionic engines and for the automotive sector, wind tunnels and semi anechoic and anechoic chambers.
