> More about ITALPROJECT

Founded in 1999, the company is committed since then to the Automotive and Aerospace Design.

Italproject operates in the automotive sector, trucks and operational vehicles and light vehicles. The services cover complete project development for automotive and commercial vehicle sectors, electrical, hybrid and thermal motor propulsion, show car and one-off project design, retrofit, electrical upgrading of vehicles under production, interior trims DMU and packaging.

We can support the customers in the various stages of the project, from the initial setup stages to industrialization, according their specific needs.
