## > More about SPESSO GASKETS

Since 1926 we manufacture high quality engine gaskets and gasket sets both for the OEM and the aftermarket. Our gaskets are mounted on the major European brands, starting from the small engines of motorcycles and cars, up to the big engines of trucks and agricultural machinery.

As tier 1 supplier to both the major OEMS and the most successful distributors of spare parts worldwide, in 90 years of history SPESSO GASKETS gained the trust and respect of all customers: continuous improvement of customer value, through innovation, quality, service and affordable prices, enabled us to team up with them successfully in increasingly challenging markets. *Lean Management* is the key of SPESSO GASKETS' success as an extended enterprise, and the resulting empowerment of all its people is how the company exerts true social responsibility.

Our efforts have led us in winning the "Best Iveco VMI supplier" award in 2012.
