

ATET

> More about ATET

ATET is a dynamic engineering company experienced in designing and distributing radio communication systems for the military and civil sector. Working side by side with law enforcement agencies, ATET over the past years has acquired a deep knowledge of developing smart monitoring and tracking solutions.

All of their products are designed and manufactured in house, so to ensure the quality control at all the stages of production.

The mission is to support customers and make them winning in their business, providing tailored solutions and assuring a maximum level of reliability. A combination of experience and competencies allow ATET to understand the clients' needs to build truthful long-term relations. Therefore, ATET has established strong relationships with several clients and partners across Europe, Asia and the rest of the world.

ATET mainly operates in the automotive, aerospace, cleantech, health & wellness and smart manufacturing fields.
