> More about AWorld Srl Società Benefit

AWorld's mission is to help organisations empower their stakeholders to take action on climate change. By leveraging advanced technologies like AI, blockchain, and data analytics, AWorld provides an ecosystem that educates, motivates, and measures the impact of users' daily choices on their carbon footprint. This approach helps companies foster a culture of sustainability and integrate sustainability principles in decision making. It supports corporations like Enel, BlackRock, Estée Lauder, and Cognizant in their journey towards NetZero. Recognised by [Google](#) as the Best App for Good worldwide, we are trusted by entities like the [United Nations](#) and the [European Commission](#).
