> More about ETP S.p.A.

Founded in 1992, ETP S.p.A. has established a strong presence in the automotive sector with high-quality engineering services, becoming a key player in the research, development, and design of automotive components.

Core Competencies:

Specializing in luxury sports car engineering, ETP focuses on Exterior Trim, Interior Trim, and Body in White and Closures.

Project Execution:

ETP collaborates with car manufacturers from style feasibility to final engineering, supported by its style department, which offers comprehensive design services: hand sketches, 2D/3D renderings, and C-B-A Class surfacing.

Mission and Approach:

ETP aims to be a true partner to its clients, working collaboratively to develop projects, explore solutions, and ensure production viability. The company prides itself on a responsible, proactive approach, ensuring all projects meet technical and stylistic demands.
