

MSA DAMPER SRL

> Automotive

Market Channel / Automotive OEM/OES / Customer's Product /
Automotive Aftermarket / Commercial Vehicles, Trucks & Buses
/ Plastic & Rubber Transformation / Safety / Competence Area /
Agricultural, Earth Moving Machines And Special Off-Road
Vehicles / Components Subsystems & Systems / Piping
Machining / Manufacturing Technologies & Production
Management / Challenges / Manufacturing / Suspension
System, Wheels & Tires / Mechanical Machining / Surface
Treatments (Coating, Painting, Etc.) / Comfort & User
Experience / Predictive Maintenance / Construction & Assembly

> Railway

Competence Area / Bogies & Running Gear / Plastic & Rubber
Molding / Safety / Customer's Functional Segments / Rolling
Stock / Production Management & Technologies / Suspension -
Dampeners / Piping Machining / Challenges / Mechanical
Machining / Manufacturing / Surface Treatments (Coating,
Painting, Etc.) / Comfort & User Experience / Predictive
Maintenance / Construction & Assembly

MSA DAMPER SRL

> More about MSA DAMPER SRL

MSA DAMPER is specialized in designing and producing shock absorbers and anti-vibration metal rubber components addressing the market to railway, commercial and special purpose vehicles. MSA DAMPER is present on an international level supplying both leading OEMs and aftermarket through its distribution network.

In Railway we design and produce a full range of shock absorbers which cover all the applications requested by OEMs and also after-market.

In Automotive we manufacture a complete range of standard and special shock absorbers for buses, trucks, trailer-axles, agricultural and special purpose vehicle applications in conformity with the severe technical specifications of our partners.

MSA DAMPER has obtained the following international certifications:

- ISO 9001:2015 quality management system
- ISO/TS 22163:2017 (IRIS rev 03) Railway applications - Quality management system
- EN 3834-2:2021 quality requirements for fusion welding of metallic materials
- EN 15085-2:2020 Railway applications - Welding of railway vehicles and components
- ISO 14001:2015 Environmental management system
- ISO 45001:2018 Occupational health and safety management system
