> More about MAGLIFICIO PO con socio unico

OSCALITO was established in 1936 at Turin, the cradle of Italy's fashion and textile industry. And it was at Turin that our production of underwear and lingerie began. Whether for knitting, designing, cutting or finishing, Turin remains to this day the very heart of our entire manufacturing process.

All OSCALITO items are truly Made in Italy: we use the finest fibres and raw materials, virtually all of which are produced by top-flight Italian firms. An innovative RFID (Radio Frequency ID) system ensures that not only each and every item you purchase can be properly traced and identified, but each stage of the production process as well.

The choices we make here at OSCALITO ensure that the item you purchase is of the highest quality, from our choice of suppliers through to a lengthy and painstaking production process, designed at every stage to bring out the very best in each fibre and material.
