

JEWELS OF ITALY

MONILE

> More about JEWELS OF ITALY

For almost 50 years, MONILE has been contributing as pioneers of platinum fine jewelry.

All along its history, MONILE has developed partnerships with leading global players, some of these partnerships lasting for over 20 years: *De Beers* (global diamonds leader), *Platinum Guild* (global platinum producers' association), *Lazare Kaplan International* (diamond sightholder, US), *Connoisseur* (Rappaport's distribution company, US), *Rosy Blue* (diamond sightholder, India), *Pluczenik Group* (diamond sightholder, Belgium).

Through the Everlasting feature, MONILE leverages decades of experience in platinum manufacturing to craft perfect and long-lasting jewels obtained from a process which makes the platinum resistant and capable of shining even after years of day-by-day wearing.

The jewels by MONILE follow the quality guidelines of the traditional and skilled goldsmith district of Valenza; they do not forsake, however, the technological innovations which make each creation an important and long-lasting jewel.
