> More about MAISON CLAIRE

A passion for beauty, creativity and artisan excellence is the distinctive mark of MAISON CLAIRE, founded in the 90's in Varallo Sesia, an elegant little town abounding in history and art, the treasures of Varallo's Sacro Monte, a Unesco world heritage site.

Clara Bertoli and Giulia Scalvini design and produce exclusive lines for the table, the bedroom and bathroom: a niche reality which for almost 30 years has been in constant development creating and distributing items of excellence worldwide to an international clientele that is at once demanding, cultured and refined. The collections are the result of the greatest of care and the use of noble fibres such as linen, cotton, silk and cashmere which highlight the artisanal manufacture, conveying a magical charm which only skilful, masterly hands are able to create with rich, elegant variety: Bed, Table, Bath, Cashmere and Lingerie.

MAISON CLAIRE

Embracing diverse styles which range from the contemporary, linear and elegant, to the classic, enriched by laces and embroidery, each bears witness to Clara Bertoli and Giulia Scalvini's experience and in-depth knowledge of fabrics which is conveyed in the development and creation of each project, creating entirely bespoke collections.

Each project is thus a wonderful adventure, an Italian Artisanal Excellence, recognised by the Regione Piemonte, to be shared with clients in order to find ideal solutions to each individual requirement in the name of elegance, class and style.

MAISON CLAIRE mainly operates in the design and textile fields.
