> More about OFIR

OFIR Atelier is a family run business founded by Alberto Vaccari, who was a renowned Italian jewellery designer and maker since 1950. All OFIR's jewels have always been and still are handcrafted in Valenza, a town with over 150 years of handcrafted jewellery tradition.

Our jewellery collection reflects the best of Italian creativity and elegance as well as the life-long skills and expertise developed by its founder. In recent years this master craftsman tradition has been handed down from father to son. Manuel Vaccari, Alberto's son, continues his father's work with a commitment to beauty and to keeping up company's traditional high standards of quality and design whilst introducing new concepts and ideas.
