Furniture & equipment for residential & commercial spaces

> More about INDUSTRIE TOSCANINI

TOSCANINI have been passionately producing useful and design-led tools starting from basic elements for four generations now. Raw materials taking shape to become elegant clothes hangers and hanging solutions to store and display garments, accessories and shoes.

TOSCANINI believe in Made in Italy as being a real value and not just a plain label, producing in Italy is a choice for quality, craftsmanship and inner elegance.

The TOSCANINI brand is a benchmark for its ability to give shape to the finest wood types and other precious materials such as plexiglas and to transform them into elegant handmade accessories meant for the best fashion brands or luxury walk-in closets.

The TOSCANINI Interior collection items are conceived to combine design and wearability and to meet the expectations of professional tailors and private customers, who appreciate bespoke products, that keep their clothes in good shape.

INDUSTRIE TOSCANINI

“We’d need a *plûch* more”, that is what our father Ettore Toscanini used to say, meaning that perfection is always a step away. After four generations, TOSCANINI, haven’t ceased to search for that little detail to fill the small distance that separates us from perfection.
